The Points Data report shows the events and times included in the swimmers points tally as at 29 April. Use CTRL+F in the PDF file to find the swimmers name.

The Points Summary report shows each swimmers points tally as at 29 April.

These reports only include the times where swimmers have **entered** the events in Fastlane **and refreshed** their entries for new PB's or new events. Where a swimmer has since recorded a new PB or new event, go back into Fastlane, ensure the event is **"Enter = Yes"** then **"Proceed"**, and **"Save Entry"** to refresh their entry times.

Please check your swimmers data; if there are errors, it is most likely the swimmer has not refreshed their times or entered the event. (New swimmers and transfers may still need to be entered.)
